

Kitchen/Bath DESIGN TRENDS for 2019

Top of the list is the Smart Kitchen. When do we *not* use our iPhone, iPad or tablet with blue tooth enabled? In my most recent renovations, I'm including USB ports to be strategically placed along the backsplash walls of the counters for every new wall socket installed. This thought also is a win in the bathroom along the splash side walls of the vanity. Connecting with Siri or Alexa, we're living in an age where fridges, ovens, even your BBQ grill connects to the internet and yes there's an app for cutlery! Check out www.hapiforkhapi.com.

Back to design; Streamlined and minimal design has arrived. In the bathroom, uncluttered *and* minimal space creates more of a calming presence with just a few details. Floating vanities, a wall-mounted toilet, free standing tub and glass shower surround complete the room.

In the kitchen, colors play a dominant role. White, gray, blue with accents of yellow, red and green all help create a warm and welcoming space. Helping you create your vision for your home is what Diane Rosen Interiors is all about. Give Diane a call and let your vision become a reality.

When considering home modifications, updating or creating a new space for you and your family, please call **Diane Rosen at 314.359.0890** http://dianeroseninteriors.com/green_interior_design.php

"Together we can create a complete plan for your home and/or office space, working with your budget, your vision and your timeline."
- Diane Rosen

Just Need A Little Direction?
... what is the best color for this room?
... hang my favorite picture where?
... but I really love to shop myself!
... can I really do this on MY budget?
